

AMENDMENT UNDER 37 C.F.R. § 1.111
U.S. Appl. No. 09/624,224

AMENDMENTS TO THE SPECIFICATION

Please replace the present title with the following rewritten title:

~~PRINTER DEVICE, DATA PROCESSING DEVICE, PRINTER SYSTEM, PRINTING
METHOD AND STORAGE MEDIUM STORING A COMPUTER READABLE PROGRAM
PRINTER SYSTEM FLEXIBLY COMPATIBLE WITH PLURALITY OF PRINTER
CONTROL LANGUAGES (PCL) USING INTERMEDIATE AND RASTER CODES~~

~~Please~~ delete the present Abstract of the Disclosure and replace it with the following new Abstract of the Disclosure.

Q1 ~~Provided is a~~ A printer system which is flexibly adaptable to many various printer languages and new languages. The printer system is ~~constituted by combining~~ combines a printer device and at least one data processing device. The data processing device and the printer device respectively have an intermediate code generating element for generating the intermediate code compatible with the print data ~~by performing language analysis of the print data~~ and an intermediate code rasterization element for rasterizing the generated intermediate code into print image information. ~~Moreover, the~~ The printer device further has a printing element for controlling print image information rasterized by an intermediate code rasterization element ~~to be stored in a prescribed storage area of the printer device, and printing prints~~ on the basis of the stored print image information. An intermediate code generating element ~~of the data processing device is capable of analyzing~~ analyzes print data described in a language not corresponding to the intermediate code generating element of the printer device.
